Agreed, the responses largely do not address our concerns. We probably should put that in writing and express concerns for the delay of well installation.

Hi Carolyn - Same non-responses we've been getting all along. Do you anticipate any further commenting at this point? If Kathy's June 14 email's estimate of construction time is correct, they should be starting to pump from CZ23 this week – hopefully. But I guess we still don't know when drilling of new wells should start.
